

TAKE ACTION

For Sustainable Food

BACKGROUND

President Biden recently laid out **The American Jobs Plan**, a broad infrastructure bill that aims to transition the U.S. off of fossil fuels via investment in green jobs, clean energy standards, and incentives for green technology. **Now it is up to congress** to write and pass a bill based on, and hopefully even strengthening, the plan.

HOW TO HELP

Take a few minutes to call your members of congress to tell them you want sweeping climate legislation.

You have two senators and a representative in the House of Representatives. Dial:

(202) 224-3121

Tell the operator that you'd like to speak to one of the senators for your state. Use the provided script and feel free to add details about why you care. Call back to ask for your other senator, and then again for your representative in the house.

SCRIPT

Hello, my name is [YOUR NAME] and I am a constituent. I'm calling to tell you that I support American investment in the green economy. I hope you and your colleagues will take up and strengthen the American Jobs Plan, passing legislation that creates jobs while centering a just transition off of fossil fuels. Thank you.

That's it! Thanks for playing a critical role in the Jewish climate movement!
